

SCAMP Camp Scholarship

June 11-22, 2018

Description

SEAS is proud to announce we will be hosting the 2018 SCAMP Camp group boat build **June 11-22**, every day from at our new facility located at 1837 Superior Ave., Sheboygan WI. We are very pleased to partner with sailor, boat builder and educator Howard Rice who will lead the build.

Hundreds of sailors worldwide have figured out there is something special about this little pocket yacht named SCAMP, and with Howard's lead, SEAS is offering this exclusive opportunity to an individual to participate in the build with instruction and fellow builders with willing hands. There are few better ways to learn boat building skills than through actually building a boat with a knowledgeable boat builder/instructor at your side.

If you dream of sailing over the horizon in a tiny boat, would like to engage in fun racing, or if a lazy sail up a calm river suits your tastes, then SCAMP may be an ideal small boat for you. We had the opportunity to spend time with Howard and his SCAMP Southern Cross in April and were very impressed.

SCAMP's are fun to build, an act of creative expression, easy to handle by one person, can carry an amazing load, are nimble, fun to sail and about as unique as can be in a world of cookie cutter boats. The real fun in the concept is that SCAMP was designed as a sleep aboard coastal camping and beach cruiser or as some refer to the type, a pocket yacht. SCAMP is also a US Sailing registered one design class.

This 11th SCAMP Camp is a group boat build that is both highly instructive and very productive. Just as important is a huge amount of fun.

Three new builds have been confirmed and booked for this session. Other SCAMP's under construction will also be at the build making for an interesting and educational opportunity. Each day Howard will facilitate and instruct the build and will offer a small craft specific chalk talk covering any small boat use topic the class wishes to discuss ranging from living aboard to sail trim.

We are pleased to announce that Howard has offered a **full tuition scholarship** to one lucky student to be selected by SEAS, with a **value of \$1800**. This scholarship will be made available to one lucky Sheboygan student who will then be able to take part in the build as a full participant. What an opportunity!

For further information on SCAMP Camp and small boat adventuring please visit <http://www.thepocketyacht.com/scamp-camp/>.

Scholarship requirements

- This scholarship is available to all Sheboygan county residents.
- Preference will be to participants of High School age, but not limited to, with a strong essay entry.
- A completed SCAMP Camp Scholarship form and a letter of recommendation are required with your essay submission.

Submit application with essay and letter of recommendation to Matt Wierzbach at mattw@seasheboygan.org or dropped off at 630 Riverfront Drive, Suite 200 by **June 1st 2018, 5 pm.**

When

SCAMP Camp is scheduled to begin on Monday morning June 11th at 8am and concludes ten (week day) working days later on Friday June 22nd 2018. Builders are welcome to move their tools into the shop on Sunday June 10th between 12 noon and 5pm.

Each work day during the build will begin at 8am and end at 5pm unless we are having too much fun and decide to push on. Lunch is an hour at noon. Each days lunch break will be an opportunity for the group to engage in a small boat chalk talk by the build leader Howard Rice pertaining to small boat use or build topics the builders suggest.
